

## **Budgeting by Priorities Community Meeting**

---

March 1, 2010

### **Community Feedback**

#### **Is City heading in the right direction?**

##### **Why not?**

- Loosing small town feel with "wall" of buildings downtown
- City is not keeping up with infrastructure needs in neighborhoods already developed (sewer?)
- Takes longer to get from one place to another – traffic issues come with density

#### **What types of businesses are missing?**

- Family movie theaters
- Nightlife

#### **What would help to get community involved?**

- More interactive website
- Get the word out – communication access

#### **How to keep people informed?**

- Redmond Reporter
- Too much apathy in neighborhoods

#### **How to reach people to prepare for emergency?**

- Partnership with the schools
- Put stuffer in utility bills
